Cleft Team Care involves the collaboration and coordination of multiple specialties to achieve an optimum result for a person born with a cleft lip &/or palate. This is the ‘standard of care’ set by the American Cleft Palate-Craniofacial Association (ACPA). Since 1969 Saint John’s Health Center has provided a forum for the exchange of information and strategies among specialists from the Team, dental schools, and private practice for a breakout session highlighting dental and orthognathic surgical advances contributing to improved outcomes.

There are no products promoted.

LEARNING OBJECTIVES
- Participants will be able to explain the roles of interdisciplinary team care for optimal patient outcomes.
- Participants will be able to describe common issues in the cleft population.
- Participants will be able to identify new techniques in cleft care appropriate to their specialty.

SUPPORT
Support and leadership for the Cleft Palate Symposium’s professional and community outreach have been provided by Sister Maureen Craig, SCL, Marcel Loh, Chief Executive Officer, and Medical Directors Danelle Fisher, MD and Reza Jarrahy, MD, along with the Saint John’s Foundation. We continue to explore advances in behavioral, as well as reconstructive disciplines which contribute to improved outcomes for individuals with cleft palate and craniofacial anomalies. We look forward to sharing and learning with our patients, colleagues and the community.

SPECIAL THANKS
The staff of Saint John’s Cleft Palate Center expresses its sincere appreciation for the generous continuing support we receive. We would especially like to recognize the Native Sons of the Golden West.
